TRUE ORGANIC

Gentle caresses for the future of those you treasure.

The nexus of beauty derives from life filled with wellbeing and laughter.

We hope that the sense of humble reverence for synergy between nature and us brings forth beauty beyond the trivial.

Presenting the NUMBER THREE ORGANICS, the COSMOS certified line (global certification standard for organic products),

a fruit of our passionate pursuit of what is "truly organic".

Transform your way of life with "TRUE ORGANIC" and experience contentment and resilient hair while enriching your

everyday with our carefully chosen nature derived ingredients.

WELLBEING CYCLE

NUMER THREE ORGANICS prides itself to make every possible effort to use regenerating, sustainable, naturally derived ingredients. We are committed to use environmentally friendly processes for packaging and processing.

Commitment to Sustainable Ingredients

We only use ingredients that are natural and sustainable that has cleared the highest threshold standards from cultivation to extraction phase.

Commitment to Environmentally Friendly Packaging

To limit the impact to the environment, we use environmentally safe and friendly packaging materials.

WELLBEING CYCLE

Commitment to TRUE ORGANIC under the Global Standardization Protocol

Entire product line adheres to true organic standards under the COSMOS certification (global certification standard for organic cosmetics), not our own internal standards.

COSMOS Certified Factory

Self-owned and operated NUMBER THREE manufacturing plant is one of the few in Japan that is COSMOS, ISO 22716 (Cosmetics GMP) dual certified. Production, packaging, storage, operations all undergo the strictest standard in the product making processes.

Proof of TRUE ORGANIC

"COSMOS ORGANIC", "COSMOS NATURAL" and "VEGAN" products in line with the global standardization criteria was born to spread the sense of assurance and contentment that comes from knowing that you and those dearest to you are using the safest products.

What is COSMOS?

COSMOS stands for "**COSM**etics **O**rganic and natural **S**tandard"which is an European based accreditation body that aims for global standardization of Organic / natural cosmetics products. Wide variety of institutions around the globe is a member of this accreditation body. The accreditation process involves stringent review of: "source of ingredients and its processing"; "the ingredients that make up the final products and its composition percentages"; "storage, production process, and its packaging"; "environmental management systems"; "labeling and information transmittal protocols", and other criteria to attain the COSMOS certification.

< Two Levels of COSMOS Certification >

(COSMOS ORGANIC Certification)

✓ At the minimum, 20% of the final finished product must be comprised of organic ingredients.

☑ All the COSMOS NATURAL standards must be met.

COSMOS NATURAL Certification

All ingredients used must be scrutinized.

<Ingredients subject to scrutiny>

water, minerals, physically processed raw material ingredients, chemically processed raw material ingredients, and other ingredients.

What is Vegan?

The concept of Vegan originated in 1944. It refers to the way of lifestyle focused on wellbeing, health, beauty, animal protection and the environment. Vegan means "absolute vegetarian way of life". A choice to refuse animal-derived ingredients for food, clothing and housing for the promotion of better health, beauty and the environment. Vegan has become a choice of lifestyle for vegetarians, organic and naturalist fans around the world, and has set a renowned standard of life choices that permeated throughout the world. This new standard has created sensations in Japan, and possibly can ignite new level of consciousness for health, safety and beauty.

The Power of Organics Brings Forth Sense of "Wellness".

For our organic product line, we hand pick only the essential ingredients that is crucial to unleash the power of nature. Entire product line contains extracts of deep colored Acai and Sea Buckthorn fruits, abundant with natural protectant against harmful rays of the sun.

< Ingredients in the Entire Product Line >

Acai Extract

Acai originates from palm plant in Brazil. It is nicknamed to be the "gem of the Amazon" due to it's resilience, nourished by active oxidation properties evolved from thriving in harsh living habitats of scorching sun rays near the equator with abundant rain. The oil extracted from its fruit is higher in vitamin E than the polyphenols, vegetable based sterols, olive oil, and retains high antioxidant and moisturizing effects.

Sea Buckthorn Oil / Extract

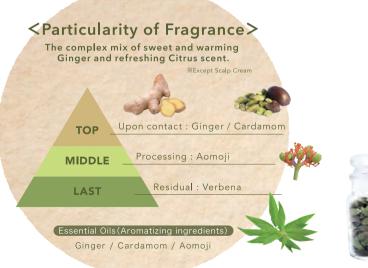

Originating in Eastern Europe and China, Sea Buckthorn bears fruits on Elaeagnaceae type plant. Nicknamed as the "Super Fruit", it bears fruits in the harshest condition of semi-deserts and high-altitude environment, and is extremely nutritious. The oil extracted from the fruits and the seeds are high in flavonoids, vitamin E and other active ingredients that is abundant in antioxidant and beautifying properties.

< Ingredients in all Shampoo & Treatment Products >

Hydolized Coix Lacryma-Jobi Ma-Yuen Seed (Adlay Seed)

Adlay Seed is a plant based amino acid humectant which resembles the amino acid naturally present in scalp. When applied to the scalp, it increases the moisture retention function of the scalp resulting in elastic effects. In addition, the amino acids attach itself to the damaged hair, and promotes healing effects. NUMBER THREE ORGANICS uses Adlay Seed produced in Japan.
